POTENTIAL TROUBLE SPOTS DURING THE ORAL EXAM

PROBLEM	SOLUTION
...if the candidate is very hesitant, pauses for too long and produces little output?	<ol style="list-style-type: none"> 1. Repeat the candidate's last phrase with rising intonation. 2. Ask a few prompting questions (Is there anything else you'd like to add...?). 3. Try to break down the task into simpler questions.
...if the candidate is very nervous/ tense and has difficulty speaking?	<ol style="list-style-type: none"> 1. Smile, use body language, facial expressions and intonation to make the candidate feel more comfortable. 2. If you asked the tense candidate to begin first, switch to the other candidate and come back to her/him later.
...if the candidate does not/cannot take part in the conversation or cannot continue it	<ol style="list-style-type: none"> 1. Ask if the candidate is alright, if s/he'd like the task repeated. 2. To get the candidate started, ask what information from the Greek text is useful for the task. 3. If the candidate gets stuck, rephrase what s/he has last said. 4. If the candidate is still hesitating, turn to the other candidate. 5. If the candidate is still unable to talk, you take his/her place to converse with the other candidate.
...if the candidate addresses the examiner instead of the other candidate in activity 2	Interrupt the candidates and tell them to address one another. It is advisable to ask the candidates to turn their chairs a lit bit so that they are facing each other before you start activity 2.

NOTE:

- Any extra help or guidance (as described above) given to a candidate should be taken into account in the assignment of the final mark.
- Remember that you are there to assess candidates and not to help them or teach them. It is very easy to slip into the teacher's role and supply the candidate with a word s/he is searching for or to complete the candidate's phrase in order to keep the candidate going. Avoid providing unnecessary help as much as possible.
- Care has been taken to phrase task instructions using simple lexis and sentence structure. Do not change or add more information to task instructions.
- If a candidate does not understand a word in the task instructions, you may give a synonym if you are asked to, without however altering the task instructions.

C LEVEL ORAL ASSESSMENT CRITERIA & RATING SCALE

TASK COMPLETION

	1 Unsatisfactory	3 Moderately satisfactory	5 Fully satisfactory
ACTIVITY 1 Debate	The candidate responds minimally to task instructions by simply repeating the prompts provided for the debate with no further elaboration and/or provides a brief uninformative response to the second part of the question.	The candidate responds to the task assigned satisfactorily. S/He uses the prompts provided as a starting point to develop his/her arguments without extensive elaboration and responds to the second part of the question justifying some of his/her arguments.	The candidate responds to the task assigned in a fully satisfactory manner. S/He uses the prompts provided as a starting point to develop a comprehensive argument and provides a clear, well justified response to the second part of the question.
ACTIVITY 2 Justification/ Support of an opinion	The candidate has difficulty in identifying and discussing the main issue presented in the multimodal text(s), and fails to provide a clear and justified response to the second part of the question.	The candidate partly responds to the requirements of the task. S/He either addresses part of the question or responds in a partly satisfactory manner to both parts i.e., without elaborating his/her response, or without referring to all the information provided.	The candidate responds to the task in a fully satisfactory manner, effectively using the information given to answer the first part of the question and providing a clear and justified response to the second part of the question.
ACTIVITY 3 Mediation	The candidate transfers in the foreign language some of the required information in the greek text or alters some pieces of information displaying misunderstanding of the greek text or inability to transfer the information required correctly.	The candidate responds to what s/he was asked by transferring information, views, arguments in the foreign language, but does so with some difficulty, avoiding to transfer linguistically challenging pieces of information. The candidate is frequently forced to paraphrase extensively without it being required by the communicative situation.	The candidate mediates effectively and accurately making a judicious choice of information appropriate to the task set.

QUALITY OF PRODUCTION

	1 Unsatisfactory	3 Moderately satisfactory	5 Fully satisfactory
Pronunciation and intonation	The candidate's articulation of speech is clear but s/he makes mistakes in pronunciation or intonation, which sometimes require effort from the listener to understand him/her.	The candidate has acquired a clear and natural intonation and pronunciation.	The candidate articulates clearly and effortlessly. S/He can vary intonation and place sentence stress correctly in order to express finer shades of meaning.
Lexical range and appropriacy of linguistic choices	The candidate has a relatively rich vocabulary but gaps in lexical knowledge frequently force him/her to use paraphrase or give an example. S/He may use words, phrases and expressions that do not fully match the context of the situation.	The candidate has a broad lexical repertoire which allows him/her to overcome gaps easily with circumlocutions, without obvious searching for expressions or use of avoidance strategies. S/He has a good grasp of idiomatic expressions and colloquial speech. S/He may make occasional minor lapses but no serious lexical errors.	The candidate shows great flexibility in reformulating ideas using different language forms to accurately convey subtle nuances of meaning, to emphasize, to make distinctions and to eliminate ambiguity. S/He also has extensive knowledge of many idioms and colloquial terms. There are no evident signs that show that the candidate is obliged to restrict what s/he wants to say because of gaps in language knowledge.
Grammatical accuracy	The candidate is comprehensible but makes errors in the morphology of parts of speech, in syntax or in the use of structures that are appropriate to the context of the situation (e.g. s/he uses the passive voice and not the active when this is required by the communicative situation).	The candidate consistently maintains a high degree of grammatical accuracy and appropriacy; mistakes are few and generally difficult to spot.	The candidate has consistent control of complex grammatical structures, even when his/her attention is focused elsewhere (eg in forward planning).
Fluency	The flow of speech is relatively slow because the candidate does not have all the language resources s/he needs. So s/he frequently needs to pause in search for expressions.	Can express him/herself fluently and spontaneously with few hesitations. Only a conceptually difficult subject can hinder a natural, smooth flow of language.	The candidate expresses him/herself fluently and spontaneously at length with a natural flow of everyday language, avoiding or bypassing any difficulty so smoothly that the interlocutor hardly notices it. S/He shows great flexibility in reformulating ideas using different linguistic forms to give emphasis, to respond appropriately in relation to the communicative situation, and to eliminate ambiguity.
Communication strategies	When the candidate does not know how to say something or when s/he has already said something and s/he realises that s/he has not been understood, s/he has some difficulty in overcoming the problem by using the appropriate communication strategy.	The candidate uses paraphrase and circumlocutions to overcome gaps in language knowledge. When encountering a problem, s/he can reformulate what s/he wants to say without completely disrupting the flow of speech.	The candidate replaces a word that s/he cannot remember with a corresponding form, in such a smooth way that it is rarely noticed. S/He can reformulate speech effortlessly and expertly.
Cohesion and coherence	The speech that the candidate produces sometimes has reasoning gaps (e.g. unconnected ideas, wrongly connected ideas, abrupt topic changes). S/He is able to use words and phrases that serve as connectives of individual segments of the oral text but they still appear partially disconnected.	The candidate produces well-structured oral speech with smooth flow, showing controlled use of organizational patterns, connectives and other cohesive devices.	The candidate produces speech that is coherent and cohesive, using appropriately and accurately a variety of organizational patterns and a wide range of connectives and other cohesive devices.
